GETTING STARTED

Welcome to 30 Days of Doodles. I'm Erin, The Petite Planner, and I will be guiding your daily doodles with brief video tutorials.

To get you started, make sure you are [Subscribed to my Youtube Channel](#) (The Petite Planner). This will ensure you can easily find the new video each day.

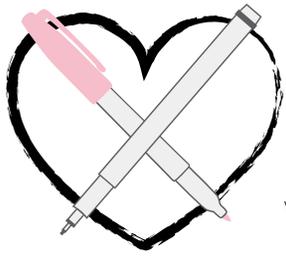

Once you are subscribed, follow along with the next few pages to prepare yourself in the days leading up to the challenge. In these pages you will practice drawing basic shapes, breaking doodles down into basic shapes, and doing a little unguided doodling.

I want you to get the most out of this fun challenge. If at any time you feel stuck or like you are lacking confidence, don't hesitate to reach out to me (hello@thepetiteplanner.com).

One last thing that is probably the most important...

Don't go into this with crazy expectations for yourself. Be patient with yourself and your skills. And remember that at one point we were all beginners. There is not shortcut for this stuff, so put in the work and be kind to yourself.

Now, let's doodle and have fun!

PRE-CHALLENGE DRILL: DRAWING SHAPES

Practice drawing the shapes shown. Try drawing them in different sizes and different orientations.

PRE-CHALLENGE DRILL: SEEING SHAPES

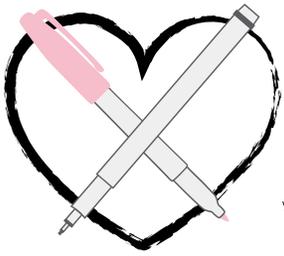

To get yourself in the right mindset for this challenge and to be able to move through it with more ease, look at these doodles and try to break them down into simple shapes. Don't let the little details distract you. Focus on what shapes actually make the object.

PRE-CHALLENGE DRILL: FILL THE BOX

In this practice, your goal is simply to fill the box below with doodles. Don't put your efforts into making them perfect or make sense. They can be shapes, words, things that come to mind. Focus on filling the box as quickly as possible. This is a great warm-up practice to do anytime you sit down to doodle.
